I ENHANCEMENTS

I.1 HOLIDAY PAY MODULE

Holiday pay calculations will now take into account any amendments made to hours in the payslip or group entry screens, instead of just using the information available from the employee's record. The payslip layout has changed slightly, too, and will now show the employee's Holiday Pay balance as a running total (starting balance + accrued amount – used amount), rather than just showing the accrued holidays.

Note: As there have been few design changes on the portal, please press (Ctrl + Shift + R) to update your cache to the latest version when you login to the portal if you're experiencing continuous loading/freezing issues.
